

# PRECIOUS MOMENTS

Every minute of your life is precious. And if you have a heart attack, every second counts to get you emergency care.

We hope you never have a heart attack. But if you do, we are always ready. You dial 911 and we roll.

We take excellence very seriously. That's why we're proud to say that we have been recognized by the American Heart Association for meeting its Mission: Lifeline® EMS cardiac care standards.

Why is that important? **Because patients like you deserve the very best.**

The American Heart Association recognizes this EMS provider for attaining 75% or higher performance on each applicable Mission: Lifeline® EMS Achievement Measure for at least one calendar quarter to improve the quality of care for STEMI patients.

The American Heart Association does not endorse the products or services of the EMS provider recognized in this advertisement.
